In the new curriculum with the flexible ("scaling") model, the individual artistic components (f.ex. a concert or a recording) are not approved or failed separately. The decision is made in the end as a complete. If the student is following the earlier curriculum the decisions are made after each artistic component.

If the pre-examiner does not approve the artistic component, the student can appeal to the board within a week after she/he has got the negative statement. The artistic board can make a positive resolution. (jatkotutkinto-ohje 5.1). The appeal should be addressed to the chair of the artistic board.
